How to Verify Checksums on Your Computer

1. Windows (PowerShell)

Open PowerShell in the folder where your APK is saved:

```
Get-FileHash .\UrbanSetu_v1.2.8_Modern.apk -Algorithm SHA256
```

Compare the output hash against the **SHA-256** string listed above.

2. macOS & Linux (Terminal)

Open Terminal in your download directory:

```
shasum -a 256 UrbanSetu_v1.2.8_Modern.apk
```

3. Online Checksum Verification & Antivirus Scan

1. Visit [VirusTotal](#) or an [online hashing tool](#).
2. Upload the downloaded APK.
3. Check the calculated SHA-256 hash and review the **0/70 Clean Antivirus Score!**
